MORNING AFTERNOON, SEPT. 27.

The importation of negro voters and over confidence in the success of the democratic ticket, conspired to hand over Nashville to the Philistines. Tom Kercheval was elected mayor by one hundred and sixty majority.

MAUR ESTES, R. H. May, Dessa-  
sion John L. Meyer and J. V. H. Allen  
are all named in connection with the  
mayorality of Augusta in the coming  
election. Give us a man that will  
respect the rights of neighboring cities.

THE southern parochialists have been gradually leaving up to a natural climax in starting Dr. Lovick Pierce's age. Such items must amuse the noble old man. We give the latest and most popular parage.

DR. LOVICK PIERCE, a Methodist minister in the south, is 100 years old, and entirely sound of body and head.

WHAT a glorious cotton mass meeting's being held in Decatur County. Their object is to suppress, by all lawful means, the numerous traffic in sheet cotton, corn, cow and hog stealing. A large and general meeting is to be held in Bainbridge on the 28th, to which all law-abiding citizens are invited.

NEXT Saturday, Sunday and Monday will be "big days" in Nashville. The Johnson memorial service will take place on Saturday; on Sunday the great men of the Southern Methodist Church will fill the various pulpits of the city, and on Monday the president of the University will be installed. Gov. Tilson and a host of notable are expected.

THE citizens of McIntosh county, at a meeting held in Darien on the 19th, appointed Messrs. Aiken, McKinley, Corker, Way and Winn delegates to the Rome transportation convention. The thanks of the meeting were tendered to Col. Probst and to those associated with them, "for their patient, impartial and scientific survey of the great water line, and for their report in favor of our river as the natural and most practical outlet for the commerce of the state."

TAX-ADVANTAGES of a manufacturing establishment are well illustrated, says the Cave Spring Enterprise, by the benefits which Trion factory have conferred on Chattooga and Walker counties. The former reaped the largest share of these advantages, for "the factory furnished a market for all her cotton, and accomplished even more than could be raised in the county. The paces paid were twenty-five cents in the hundred more than Rome prices for fine cotton, and then the factory furnished a market for all the wheat, much of the corn and bacon and all the butter, chickens, eggs and vegetables offered for sale in miles around."

TAXES are in France, according to the last census returns, 101,725 persons who have titles and over 20,000 others who use the prefix du or de, or de la. There are, however, really only about 30,000 actions of nobility in France, and it is stated that these but forty-six thousand, prunes, seven dukes, eleven marquises and thirty-five counts, can prove the creation of their title and trace back their lineage anterior to the seventeenth century, a period of 375 years.

A REPORT in the "Daily News" according to the latest calculations, only 1,000,000 persons, or 50,000,000, 100,000 more than was cast at the election of secretary of state in 1874. At that time the democratic vote was 278,400, and the republican 221,904, and it is very evident that the strength of the former has been increasing at a much more rapid rate than the latter; the result of the sagacity of the radical prophets predict that a light vote will be disastrous to the republicans.

WEN LEECH, the first, Money is the 4th in the fourth, Booker in the fifth, and Seal in the sixth districts, the democ rate of Mississippi have standard-bearers of whom any state might well be proud. The second district has not yet been made a nomination. At the congressional convention for the third district the representation was very full, and H. D. Money, East, and Montgomery county, was unrepresented. The greatest enthusiasm prevailed, and in the result the election of Mr. Money is regarded as an assured fact.

THE British public have good reason to be angry with the Honduras minister, who was instrumental in borrowing money from them for his republi.

Since 1867, that state has incurred a debt of \$20,000,000, although its revenue is only \$8,000,000, of which is needed to pay the ordinary expenses of government. In 1872, Honduras applied for \$75,000,000 more to build a "silver railway," but found no public funds available. The amount of 100,000 more than was cast at the election of secretary of state in 1874. THE British public have good reason to be angry with the Honduras minister, who was instrumental in borrowing money from them for his republi.

Since 1867, that state has incurred a debt of \$20,000,000, although its revenue is only \$8,000,000, of which is needed to pay the ordinary expenses of government. In 1872, Honduras applied for \$75,000,000 more to build a "silver railway," but found no public funds available. The amount of 100,000 more than was cast at the election of secretary of state in 1874. At that time the democratic vote was 278,400, and the republican 221,904, and it is very evident that the strength of the former has been increasing at a much more rapid rate than the latter; the result of the sagacity of the radical prophets predict that a light vote will be disastrous to the republicans.

WEN LEECH, the first, Money is the 4th in the fourth, Booker in the fifth, and Seal in the sixth districts, the democ rate of Mississippi have standard-bearers of whom any state might well be proud. The second district has not yet been made a nomination. At the congressional convention for the third district the representation was very full, and H. D. Money, East, and Montgomery county, was unrepresented. The greatest enthusiasm prevailed, and in the result the election of Mr. Money is regarded as an assured fact.

Some dealers say: Yes, we know that Dr.  
Price's Flavored Extracts and Cream  
Pakings are the best, but we don't  
care if others are made better or  
not so long as they suit our customers  
and afford us a better profit, we shall sell  
them. And know too the reasons why  
adulterated baking powders and flavoring  
extracts are not wanted. The dealers  
of Dr. Price's are asked for. It is be-  
cause Dr. Price's cost more and as they  
sell them at a lower price, we should  
not be so good a profit. We should  
look to the quality of articles that enter-  
into daily food, and realize that  
we can't afford to put the best into  
the market at the same price of the adul-  
terated ones. Stetel & Price, manufac-

## LITTLE WOMAN.

In a precious little stone what splendor meets the eyes!  
In a little lump of sugar how much of sweet-  
ness lies!  
Such little treasures grow and multi-  
ply.  
You recollect the proverb says—a word unto  
the wise.  
A poor man is very small, but seasons  
every dinner  
More than all the conditions, although 't  
is not the thinner;  
Just as a little woman is, love will let you  
win her—  
There is not in the world the world you will  
not find within her.

And as within the little rose you find the  
reddest hues;  
And in a little grain of gold much price and  
value lies.  
As from a little balsam much odor doth  
arise,  
So to a little w'm there is a taste of par-  
ticular thiner;

Just as a little woman is, love will let you  
win her—

There is not in the world you will  
not find within her.

And as within the little rose you find the  
reddest hues;

And in a little grain of gold much price and  
value lies.

As from a little balsam much odor doth  
arise,  
So to a little w'm there is a taste of par-  
ticular thiner;

Just as a little woman is, love will let you  
win her—

There is not in the world you will  
not find within her.

The skylk and the nightingales, though  
small and light of wing,  
Are the sweetest notes the grove than all the  
birds think;

And so a little woman, though a very lit-  
tle thing,

Is sweet forthan sugar, and flowers that  
bloom in spring.

The magpie's song, the golden thrush have  
made a shrill note.

Each as a gay musician doth strain his little  
throat—

A tuneful singer, in his green and  
yellow coat;

And such a little woman is when love doth  
make her note.

There's nothing else to compare to her  
throughout the wide creation;

She is a paradise on earth—our greatest con-  
solation—

So chearful, gay and happy, so free from all  
affection;

In she, she's better in the proof than in all  
anticipation;

If, as she increases, her woman's  
charms decreased,

Then surely it is good to be from all the  
greatness;

Now two of evils choose the less—said  
a wise man of the east;

By consequence of woman kind be sure to  
choose the least.

—Bo the Clinch Rides a d'ad company, B.  
Oglethorpe Infantry, will attend the contem-  
nial.

—One of our merchants filed a \$3,000  
order yesterday.—Constitutional.

—BIRMINGHAM.

—Last Saturday night a negro named Jack  
was shot in a cotton field near Atapulgus.  
He had harvested a ton of cotton seed, and  
had no doubt thinking of the big price he  
would get for it, stashed it from the house  
west of the court house, where the bullet  
brought him. At last accounts he was improv-  
ing.

—The south Georgia medical association  
met in this city Tuesday in the Harmonie  
Venue Hall. It was a fine looking body of  
men. The president, Dr. Hopkins, of Atlanta,  
presided. Dr. Thomas, president of the  
state board of health, was present—and Dr.  
Cromwell, a member of the board for  
the 22 congressional district.—Democrat.

—A negro called himself Jerry Edwards,  
and hailing from Early county, recently  
stole \$70 from Mr. John H. Jenkins, of Clay  
county. The thief was tracked by dog  
into Randolph county and there captured in  
a pond, up to his neck in water. When  
captured he had in his possession \$4,000  
recept from this country, in the name of Capt  
Jones.—News.

—That squall that Mrs. R. W. White-  
head sent to us and J. A. Wynn—a cop-  
artnership squall—last week, is the largest we  
ever saw. It is what is called the "man-  
moth winter" and weighs 62 pounds. It is  
not a hard-shell squash, like a gourd, but is  
perfectly tender, like a summer squash  
Record.

—Accompanying a listment for his  
horses, which had the scratches, Tuesday  
Mr. Ray, of this place, had the misfortune  
to put nitric acid in the listment, by mistake  
we suppose. It was spilled to the horse's  
legs for two or three inches above  
his hoofs, and caused the flesh to stony-  
off in such a manner that the sinews are  
perfectly visible. The poor horse's suffering  
is intense.—Express.

—On last Saturday Rev. F. M. Hawkins  
handed us an apple of the Buff variety,  
which weighed 14 ounces and measured 3 1/2  
x 4 inches in circumference.

—On Tuesday we saw an ear of corn in  
the hands of Mr. Henry Smith, living new-  
town that weighed 1 lb. and 10 ozs. He  
told us that he thought he could gather on  
hundred bushels just as fine as the ear we  
saw. His only name is plow.—Cotton.
